FLORENCE

SEWING MACHINE.

Copy of the Report of the Committee of Awards at the Fair of the

AMERICAN INSTITUTE

NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,

Highest Premium! Gold Medal!

REASONS:

1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made.
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficient, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

LETTER FROM NEW YORK.

NEW YORK, JAN. 18, 1868.

What a chance for a moral editorial, in the Siberian gold news dispatches from St. Petersburg! "The natives are flocking to the gold regions by thousands. So great was the excitement that troops had been sent by the Governor to preserve order." We need not go to Montana to witness the struggle for gold, nor to Siberia to hear of "desperate and bloody conflicts." The natives along the Amoor are not "flocking to the gold regions" more eagerly than the "natives" are flocking to Wall street. The conflict for gold is as desperate in our own great city as anywhere else on the face of the globe. Hard times seem to be prevailing here now, in downright earnest. The police have just finished taking a census of the different wards to find out the number of people out of employment. They estimate the number at one hundred thousand souls, while at least a hundred thousand more are barely making both ends meet. Why people will consent to remain in cities and starve is beyond our knowledge.

It is no use to sit down and lament, and of less use to get into a passion with Congress, or this or that political party. The simple fact is, that this want of work, dullness of trade, shrinking of incomes, is one of those periodical events which have always happened with more or less frequency. For several years past we have been doing more work, making more goods, and importing more merchandise than we really needed. We must now wait a little while for this surplus to be consumed, and then the wheels of trade and manufacture will start again.

A stroll on the outskirts of the city, in many a loathsome alley and by-way, discloses the most wretched features of a large city. There it is one sees the crowding of the weak by the strong in the great rush for "wealth and power," and even for existence. The centers of trade lift cold, frowning, and insuperable barriers to the poor. The edict of fabulous rents startles them off, and they huddle together in dilapidated shanties on the straggling edges of the city. The great problem is ever before them, "How to live?" and keep pace with the inflexible demands of iron necessity, and banish "hard times" forever from their doors.

"Will rents come down?" is the question anxiously propounded by everybody who owns a landlord. We fear the answer must be decidedly in the negative.

The population of this city is over rather than under a million, and it is constantly increasing.

Before long the want of houseroom will compel people in New York to resort to the same conditions which prevail in Paris and Berlin and Vienna; people of refinement and good position must be satisfied to occupy a floor instead of a house.

Prejudice of some sort is born with every man. Ireland and the Irish are an Englishman's *bete noir*—his horror and his nightmare. Whatever an Irishman does, or however he does it, sturdy John Bull will hypercritically examine and pick flaws in it.

Our readers will remember that John Maguire, a journalist, and an Irish member of the British Parliament, not long since paid us a flying visit.

One of the results of his visit is a book, in which he reviews the condition of his countrymen on this side of the Atlantic.

The London *Times* devotes four columns to this book. The reviewer handles his tomahawk and scalping-knife with the agility and ferocity of an Indian. Nothing in the book pleases him. For instance, Mr Maguire endeavors to show that for industry and sobriety the Irish in this country will compare favorably with any other class of citizens. Whereupon, the reviewer administers the blow:

"What class is it which fills the filthy alleys and lanes of New York, which gives employment to the city, institutions on the Islands, and which affords the police their principal occupation? Any one on the spot would have told Mr. Maguire that an enormous majority of this class consisted of the Irish."

Again says the reviewer:

"The influx of Irish immigrants, and the state of squalor, and beggary into which so many of them sink, has made one quarter at least of New York a perpetual annoyance to the native-born American."

Which is not the fact, nor even the semblence of a fact.

Dickens has made but two speeches in public since he arrived in Gotham—one of these was "You be d—d sir," to a policeman who politely told him to "move on," in a crowded thoroughfare like Broadway, when the great author stopped incidentally to greet a few passing friends. The other speech was, "Thank you, my kind and generous friends—thank you, good night to you all!" This was delivered in a shrill squeaking voice—a marked peculiarity of Mr. Dickens' intonation—to a few seedy-looking men of doubtful reputation a sprinkling of oyster-house critics and a dash of Bohemian element in literature, hired by his agent Dolby to personate the character of leading citizens, to delude and mislead the public into the belief that a "great ovation" in the way of a "magnificent serenade and reception" was tendered to the great Mr. D., on the night of his arrival here, by many of our most "prominent and wealthy men." The serenade and reception was gotten up to order and paid for by the indefatigable and hard working Dolby, as an advertisement. Next followed a card in one of the leading morning dailies' urging our public-spirited citizens to give the illustrious Boz a public dinner or a second edition of the Dickens' ball—at the Academy of Music—tickets sold by subscription to "invited guests" only at ten dollars each. No notice; however, was taken of this suggestive card, and the comments upon it since have been anything but favorable. Other feelers of a like character have been thrown out from time to time, to work up the agony of enthusiasm in Mr. Dickens' favor, but, strange to say, all have failed in producing the desired effect. The London showman style of advertising the movements, doings, and readings of a distinguished *litterateur* does not succeed very well here. The readings so far have been only moderately successful in a pecuniary sense—the puffs and trumpeting of Dolby through the newspapers and by means of bill-posters, displayed all over the city, to the contrary not withstanding. After the first three nights all the so-called "enormous houses" at the Dickens readings have been mostly made up of "dead heads." Harper & Brothers, publishers, received at one time over a hundred tickets to donate for this purpose, and we could mention many others who are constantly in the receipt of a dozen or two cards of admission to distribute among their friends. The better class of our citizens, who would be more likely to attend lectures and readings' seem to let the little old gentleman who once betrayed their hospitality and courtesy by villanous abuse and falsification, entirely alone this time. They decline to give him another opportunity to play and *role* over again, and so close their doors against him. Socially, no notice is taken of him. Mr. Dickens is quite a small, spare man, considerable under the medium hight, looks sixty years old—has a fopish, mincing manner about him, and is not by any means what you would call prepossessing in appearance. He would be the last person you would select by his looks alone, in a brilliant drawing-room of wit and beauty, as one with even an ordinary amount of intellecual capacity, or that there stood before you the dried up, attenuated form of the immortal Boz of Pickwick fame thirty years ago. Most of his time seems to be absorbed in the further study of American institutions through a magnifying-glass. Then he visits the station-houses at midnight in search of an idea; looks in occasionally at the unclaimed dead bodies exposed to view on the wet slab stones of the Morgue, awaiting recognition; goes peering around among the nooks and crannies of the Five Points, or smelling among the delectable odors of classic Mackerelville, to discover—no doubt from among those of his own countrymen, Americans only by naturalization,—what he is pleased to call a "fair type of our governing classes, from which we select our representative men." Mr. Dickens may be a very clever gentleman, for all this, as he is certainly a very great writer and portrayer of many wonderful and life-like characters. Yet the illustrious gentleman on paper only is quite a different sort of character in everyday life. He is now with us simply on a tour of speculation, and we shall be much surprised if before the the present year closes we are not treated to another caustic volume of American notes even more bitter and vindictive than was the former. A publisher has already been consulted, we are informed. It will be the last dying kick of Charles Dickens, alias Boz, at his friends and worshippers in Yankeedom.

Did you ever attend a first-class auction sale of pews at a tip-top fashionable church? You have; then you've certainly heard the stentorian shouts of the dapper-looking knight of the hammer, with his how much? how much, ladies and gentlemen, do I hear for this choice place of worship; the most eligible seat in this grand and noble edifice devoted to our blessed Redeemer; the finest seat in line with the pulpit, where His all-seeing eye can reach you, the pew all lined with plush-green morocco trimmings, damask of the best French pattern, with the foot-stool; no, excuse me, ladies and gentlemen, not a foot-stool; but a red and striped blue ottoman, imported by one of our leading citizens, a member in full standing, expressly for this pew; formerly occupied by him, but now on a commercial expedition South, with a view of taking up some of the abandoned plantations for the purpose of improving the culture of cotton, and donated by him before departure; how much do I hear—one, two, three, four hndred and twenty dollars for this superb pew with the magnificent ottoman thrown in—all the fixtures included—the guilt-bound prayer-book, certainly, sir. Can't say whether the clasps are gold or not—refer you to the publishers—will not warrant it, however—so represented as the genuine thing—pure as gold at all events, or it wouldn't be in this church. My dear madam, it's utterly impossible for me to say whether the likeness you see in the front part of the book of our Lord and Saviour is a correct portrait or not—should think it was, however, or it would'nt be there. You ask me if it's a photograph? How should I know, my dear madam—can't positively say whether its from an original or not. You're not from the country, then—glad to hear it—one of the congregation of Plymouth. Ah, yes. Please give me a bid, ladies. How much? "Oh Jeru-sa-lem, oh my happy land—a la." Please, young ladies, don't interrupt the sale with your singing. Very fine hymn, no doubt, and yours an excellent voice, Miss. Sing in the choir, do you? Do allow me to proceed, ladies, now do. The hymn-book bound in velvet, with inlaid ivory, goes with pew number 26. Will the gentleman near the door in the gallery be kind enough to stop those ragged little boys there from strumming on the organ while the sale is progressing. He don't hear me. Deaf, is he? I should think so. John, go up there with the rattan and drive the young rascals out of there, or call in a policeman. Excuse me, madam, this gentleman is ahead of you. I must take his bid first; going—going—gone. Yes, sir, it is yours. So the first pew with its choice seat near the pulpit, its ornate trimings, its golden-clasped prayer-book, with a coarse steel egraving supposed to represent our Saviour, meek and lowly, and the magnificent ottaman donated to the church, are knocked down to some Amihidab Sleek, who pays over the amount with a grin of intense satisfaction, alternated by a look of withering scorn at the rich and pompous Mr. Jefferson Jones of Jonesville, a rival neighbor in the green grocery line and tallow candle business round the corner, who could neither outbid nor bluff him in the speculative Christian onset for a choice seats nearest to the pulpit, on the grand and magnificent highway to heaven.

Plymouth Church, of Brooklyn, presented just such a scene at its grand annual sale of pews, a few evenings since. The crowd present on this occasion was even greater than usual at Plymouth Church on Sundays. It was far more demonstrative, for policemen had to be called in to preserve order during the sale. Rev. Henry Ward Beecher, its beloved pastor, assumed quite a different role from what he usually does on the quiet Sabbath. "For this night only," he appeared as an elaborate auctioneer, and performed the character with such perfection, that the pews and extra chairs, which were appraised at $12,800, brought premiums of $36,736 50, making the total income of the church from pew-rents alone (the premiums included in the rent) $48,736 50.

The auction closed at fifteen minutes to midnight, when all retired satisfied that the organ—the great organ in Plymouth Church—will acceptably blow for another twelve months.

Hamlet has told us of the vile uses to which things inherently noble might fall by natural mutation. Changes in the fate of churches are plentiful in this city. We see them in all directions. One of the quaintest looking of the early Dutch churches—a landmark for the inward-bound mariner of one hundred and fifty years ago, has since been metamorphosed into a post-office; the Church of the Messiah into a theatre: another into a concert hall, where pretty waiter girls dispense Rhine wine and smiles at a shilling piece; Cheever's church to a show shop, and a Quaker meeting house into a lager beer saloon. Another has been transformed into a stable, and still another into a carriage mart, and all this too, within only a few years past. New novelties have also been introduced with the march of improvement. Among the more fashionable and exclusive churches located up town, operatic music is all the rage, and full dress toilets *la mode*, while last but not least, the well dressed *chevaliers d' industrie* and pickpockets have abandoned the street cars and theatres for the crowded vestibules of these splendid places of worship where they operate to far greater advantage, with less fear of detection.

We see the great suit so long pending between the Dentists' Combination and the Goodyear Rubber Company has been finally decided in favor of the latter.—Something over one hundred thousand dollars has been expended by the parties in carrying on this great legal contest, and the best talent in the country has been employed, but the dentists have had to surrender at discretion. To the victort belong the spoils, is a trite old saying, but in this case the greed of all monopolies does not seem to be displayed as usual, for, having gained the suit in every court where tried, the Rubber Company now offer the most liberal terms to all who acquiesce gracefully and accept the situation. They are reconstructing the dental profession by allowing them office rights to use rubber at low rates, and putting the price of the raw material, which has hitherto been four dollars per pound, down to two dollars. Parties who still show a rebellious spirit after the decision of the suits have had rather rough handling from the Company. It would seem by far to be the best policy of the dental profession to accept without further delay or litigation, the terms offered by the Rubber Company, that the general public may be once benefitted by the vast improvements made in setting artificial dentures.

The liquor dealers' Association of this city, numbering over twenty thousand men, are taking active measures to obtain an immediate repeal by the present legislature of the oppressive excise law, prescribing the manner of conducting their business, and fixing the hour of opening and closing their saloons, under the direct *surveilance* of the police. As the law stands now, it is but too often disregarded by the police, for extorting black mail from the saloon keepers, and squeezing out of them hush money for failing to comply with its tyranical provisions. Gross favoritism, too, is exhibited in the manner of selling licenses to some dealers, and revoking the licenses of others upon the slightest pretext, unless they come down handsomely.

A case came before the Supreme Court Chambers, on Wednesday, week, in which G. B. Lamar sues Charles A. Dana, late Assistant Secretary of War, claiming $100,000 damages for alleged illegal and false arrest and imprisonment during the war. The matter came up on a motion for the removal for the cause for trial to the U. S. Circuit Court. The court reserved its decision.

Mr. Dana has purchased the *Daily Sun* of this city for $200,000; and on assuming editorial control comes out in an article justifying his acts while attached to the War office. The *Sun* hereafter is to be devoted to the interests of the Republican party. The old attaches of the paper, however, have withdrawn in a body from the concern and started an opposition sheet named the *Daily Star*, of about the same size and appearance of the *Sun*, and taking its place as the advocate of the industrial classes. From present indications Mr. Dana's heavy investment bids fair to be rather a losing one. The old readers and subscribers of the *Sun* have made a flank movement, and gone over to the rising *Star* almost in a body.

The report of Chief-Engineer Kingsland of the Metropolitan Fire Department, says that during the year there were 830 fires and alarms, of which 91 were of incendiary origin. Thirty-six arrests were made of persons suspected of arson, of which number fourteen were discharged and the remainder were "variously disposed of." Total loss by fire $5,711,100, one-third of which was insured. The total force of men in the department is 520.

The game laws of this State are being rigidly enforced and all woodcock and "sich like" that may be eaten before the fourth of next July, will be surreptitiously procured.

Quite a number of the leading magnates and representatives of the South American republics are at present sojourning in New York. They contemplate holding a congress here to devise and submit to their respective governments, with the approval of our own as a guarantee, a defensive treaty, pledging themselves to resist with a united front foreign aggression upon any portion of the South American continent in future. The movement will take place in a few weeks. It meets with the heartiest endorsement of all our leading men. It is stated that steps will be taken at the same time to vastly improve our commercial relations with the neighboring republics, and obtain for us a better market for our manufacturing and other products than we have heretofore had in that section. Large quantities of war-like material are already going forward. The action of House of Representatives, a few days since, to sell our surplus ironclads now rusting and corroding in ordinary at the Northern navy yards, originated in this city, and grew out of the movement of certain parties here to purchase a few of them, as Mrs. Toodles says, to "keep 'em handy, in case they're wanted in furrin parts."

It now appears to be pretty well settled that the contemplated St. Thomas purchase of Mr. Seward will never amount to anything. All the reports published about the people of the island expressing their willingness to be annexed and "done for" by our revenue laws, seems to be moonshine, if we were to judge by a lengthy protest, signed by most of the inhabitants of St. Thomas which reached here a week since. What we can learn from resident Americans on the island, the annexation scheme seems to be growing more and more unpopular among the people every day. Mr. Seward's title hereafter is to be Secretary of Estates.

The social intercourse of the Japanese arriving and departing from here *en route* to Europe, with our representative citizens, is getting to be quite a feature in the fashionable circles of Gotham. A few days since a large delegation of Japs called on the Mayor of the city, dined with him in the evening, and presented his Honor with a mandarin's sword—we suppose for the purpose of carving his way through his political enemies in future.

Dr. Russell, who figured in this country a few years since as Bull Run Russell, the American war correspondent of the London *Times*, has just turned up in Paris as the representative quill of the same paper. His salary is twenty thousand dollars a year in gold and found, including house, servants, secretaries, and carriage and horses. He entertains magnificently; at his receptions may be met some of the leading wits and statesmen of Europe. The correspondents of the leading American journals, by way of contrast, are compelled, by force of pecuniary circumstances, to exist in cheap lodgings in the *quartier latin*.

Mrs. Lincoln's costumes offered for sale in New England are said to be somewhat *decollete* for Puritan tastes. The original wardrobe continues to be sold at the pawnbrokers here by piecemeal. It is not known how long the supply will hold out. A great deal depends upon the continuance of the existing demand among the more verdant purchasers of cast off clothing.

The steamers Nebraska, City of Washington, City of Baltimore, all ocean-going steamers, with several steamers of the second and third class, have all been seized by the U. S. Marshal at this port. It is charged against the owners of these vessels, that they have violated the Passenger Act of the United States, by permitting their ships to carry from Europe to this country in berths not constructed according to the terms of the law. These seizures furnish rich pickings in the way of perquisites to the Marshal and U. S. District Attorney.

The trial trial trip of the new steam frigate Wampanoag, first class, built at the Brooklyn Navy Yard, occurred a few days since, and resulted in her running fifteen knots with ease. She's a perfect volcano for consuming coal; however, naval engineers consider her trial in all respects a great success. What it costs to run the Wampanoag, would propel half a dozen commercial steamers of the same tonnage.

The foreign emigration into this city during the past year has been greater than in any year since 1854. Two hundred and thirty-three thousand four hundred and eighteen emigrants have arrived, being nearly ten thousand more than during the year 1866.

William Cullen Bryant will soon retire from the *Post*, if madam rumor does not tell lies. We fear she does.

Horace Greeley continues to lecture on "Self-made men." We should rather hear how the difficulty was overcome and the task accomplished physically. We should not be surprised to learn soon that the subject of Horace's next lecture would be "Human Impossibilities."

A daring robbery was committed in Wall street on Tuesday last.

A young man entered the building No. 19 Broad street, having collected $750 in gold coin from the Sub-Treasury—when an unknown person threw a quantity of pepper in his eyes, and, seizing the gold made off with his plunder. The thief as usual escaped. These highway robberies are alarmingly frequent of late, in broad daylight, in the lower part of the city. It is a noticeable fact, in every large city crime becomes more desperate and frequent as the winter grows colder in temperature.

Fashion has decreed that short, tight-fitting jackets of velvet or velveteen, trimmed with bands of furs and grebe, are the most fashionable; the band of grebe round the neck is so wide that it looks almost like a tippet. Of course, a muff of grebe is worn with it, and sometimes a bonnet of the same; white fur bonnets and seal-skin bonnets are becoming very fashionable, both in Paris and New York. We noticed some very pretty costumes in the crowd the other day on Fifth Avenue, which had a capital effect. The hat and jacket were of seal-skin, and the short dress and petticoat of violet velvet, with a straight band of seal-skin, about four inches wide, around the bottom of each. The violet and seal-skin formed an effective contrast.

The stores for the sale of false, very false calves, deceptive bosoms, etc., indicate the pervading anxiety for developing in this expanding and progressive age. "Making-up" has been reduced to the form and beauty of an exact science and is a favorite study among ladies.

There is a novelty in dress which has just been introduced by our fashionable modistes. It is called a "mask veil." It

DUTCH FLAT ENQUIRER.

SATURDAY, FEB. 15, 1868.

WASHING THIS TIME, SURE.—Sometime since we made a notice to the effect that Kidder & Co., whose claim is situated at the head of Squeirs' Canyon, had commenced washing it; seems, however, that we were premature in our announcement. The company, not being satisfied to expend money opening their claim unless they were sure that they had sufficient ground to repay them for the outlay, determined to sink a series of shafts in order to determine the amount of paying ground they had. They sunk three shafts on their claim, one of eighty, one of fifty, and another of thirty feet in depth, and the results were very satisfactory. They expect shortly to demonstrate to the world the fact that the mines of that vicinity are yet rich and extensive. We wish them every success.

MITE SOCIETY.—This glorious institution, which has been the means of our spending many pleasant evenings during our residence in Dutch Flat, met as per announcement at the residence of Hon. E. L. Bradley on Tuesday evening Feb. 11th. As usual, everybody who went enjoyed themselves hugely; that is if we were to judge from the eager manthe kisses were hunted up. The society have raised thus far this winter the sum of ninety-one dollars and fifty cents; the receipts of this meeting were thirteen dollars and eighty-five cents. The next meeting of the society will take place at the residence of Chas. Seffens. A general invitation is extended as usual.

FIREMEN'S BALL.—Our people should bear in mind the fact that the Fireman's Ball takes place at the Theatre on next Friday evening. Excellent music has been engaged for the occasion and every effort is being made to entertain guests and make them enjoy themselves. No cards of invitation will be issued. Go, everybody and give our valiant "fire laddies" a lift. We return thanks for a complimentary ticket.

THE following persons were elected officers of the Union Sabbath School of this place: Superintendent: H. Davis: Assistant Superintendent: B. Bowen; Librarian: F. Hudepohl; Assistant Librarian and Secretary: W. P. Thomas. The school is reported to be in a flourishing condition.

BROKE HIS ARM.—On Wednesday the 12th inst. as a little son of J. J. Hoffman was playing on an old building near his fathers residence, he fell to the ground and broke his arm. This is the third time, we believe, that the boy has had his arm broken.

NIECE AND WEST'S Cement Mill at Red Dog Nevada Co., lately cleaned up, after a weeks run, the some of $3,400. Frank Ennis Cement Mill is also making money, and other mills at the same place are pounding away with flattering prospects.

THE KING BROS. Cement Mill at this place, steadily continues to yield its owners a respectable profit. Their last clean up, on last Saturday, neted the company $10 per day to the hand employed.

Messrs Bakers, owners of a Cement claim in this place, have contracted with Smithwick for the construction of a set of arastas on their ground for the purpose of prospecting the same, prepariory to putting up a mill.

AT the annual meeting of the Redstone Co. the following gentlemen were elected officers for the ensuing year: Trustees: J. H. Redstone, Thomas Taeff, Jacob Abeel; Secretary: A. R. Schiverley.

COMMENCED WASHING,—Wolcott & Wells have commenced "hydraulicing" in their claim at Squeirs' Canyon, and they have prospects of a bounteous harvest of gold as their reward for their industry.

CHARITABLE.—Our neighbors of Gold Run gave a party for the benefit of the children of the late Mrs. J. B. Lipp, which neted the sum of $97 50.

WE learn that Rollins & Co. are ready to commence washing in their claim as soon as their pipe, which is now on the ground, is laid.

A NEW TOWN.—Not only on the eastern division of the great Overland Railroad are towns springing up with magical celerity, but here along the line of the division advancing from the West—from the Pacific—the town-builders are at work and wide-awake for advantageous sites, keeping ever in advance of the iron horse, yet hardly beyond the reach of his wild and impatient snort. The latest born of these towns has been christened Bridgeport, and is situated on the Truckee river, at the point formerly known as O'Neil's Station. It is a very pretty place for a town, and is fast building up. From Bridgeport to Lake's Crossing, down along the Truckee, are swarms of Chinese shoveling snow from the line of the proposed track and grading the road. Throughout this whole distance their huts are hardly one hundred yards apart, and they swarm along the line like ants moving to and fro upon the trail leading from their nest. Soon the town builders will move forward and drive another stake and found another town or city—we presume the majority, following the usual absurd custom, will be, by title, cities at birth. There will doubtless be a Truckee City, a Pyramid City or Lake City, near Pyramid Lake; a Desert City, a Humboldt City, and out about the Goose Creek mountains a Goose City, and an intermediate Brimstone City, (settled by Scotch.) near the Humboldt sulphur mountains. *Virginia Enterprise.*

MELANCHOLY AND FATAL ACCIDENT.—A gentleman by the name of Williams, while hunting near Garrotte, Tuolumne county, one day last week, met his death by an accidental shot from his own rifle. It seems that he dismounted from his horse, with his gun in his hand, laid down to drink from a stream. In rising, the gun was in some way discharged, the ball passing directly through his head, and killing him instantly. Mr. Williams was to have been married in the evening of the day on which his earthly career was untimely closed. Mr. Williams was P. G. and member of Yosemite Lodge No. 37, I. O. O. F. In his death the Order has lost a worthy brother.—*Mariposa Mail.*

NOT SO.—L. P. Hall, who dishes up the dirty trash for that smut-mill the Butte County *Press*, has worked himself into a considerable sweat over a notice we published on January 25th, on the demise of the vile sheet over which he presides, and falsely asserts that Mr. Boust, former editor of this paper, is the author of the article. Now, we wrote that article and are alone responsible for it, Mr. Boust has not had the control of the colums of this paper since January 1st, and Hall *knew* that he was proclaiming a damnable falsehood to the world when he penned the article in question. We are authorized to say that he LIED when he said Mr. B. at any time requested him to write articles for this paper, but that the offer came from Hall to do so at so much per letter as a correspondence from Marysville; and that after he had been paid for said articles by Boust, he applied to Crittenden, Hoge, and other prominent Democrats of San Francisco at that time for pay again. Hall, in the last issue of his paper (Butte County *Press*, Feb. 5,) empatically says that Boust *paid him*, when four years ago he published an article in the Merced *Banner* denying that he had been paid, and his lying at that would probaly have passed current had not Mr. B. taken a receipt in full from him and published it in refutation of the falsehoods at that time published. Hall says he has letters from B. showing thus and so, we are authorized to brand this, also, as a lie on his part, made out of whole cloth; if he possesses any such letter it was forged by himself and he dare not let it see the light of day. Hall does not deny the truthfulness of our assertion regarding the character of his paper, but, on the contrary, substantiates our charge, by making a personal attack on an innocent party.

THE widow of Iturbide, the emperor who reigned in Mexico in the early part of the century, with the title of Aguste I., is now in Paris, in deep distress, and went there to solicit help from the French Government. For many years Madam Iturbide resided in Philadelpha. Twenty-five years ago she was considered one of its most brilliant belles, exhibiting a dash and splendor in society there which has never yet been equalled. Madam Iturbide is American by birth born, we believe, in Pennsylvania.

THE English fashion of dividing railwagons into apartments is gradually being introduced into this country, much to the delight and comfort of all who have to travel by rail. These cars can now be taken from New York to Chicago, *via* the Pennsylvania Central, and are really the most comfortable ever offered to the travelling public. The rooms are as good as those furnished at the first class hotels.

A SOEIETY similar to the Mite, of this place, has been organized at Gold Run, and is to meet next Wednesday evening at Jewell's Hotel.

THE following claims in this vicinity have commenced washing: Deep Shaft, Iowa, and Boston.

FROM HUMBOLDT, NEVADA.—The following items are from the *Register* of February 8th:

The agents of the Central Pacific Railroad Company have fixed the first crossing of the Humboldt river at a point about two miles above Smith's crossing. This will leave Oreana on the opposite of the river, and perhaps one or two miles distant from the road.

The mercury this week has ranged from 20 to 30 degrees above zero. Thr sky has been clear with bright sunshine up to yesterday, when signs of a change in the weather appeared.

The head of the Chinese column on the Central Pacific Railroad has reached the canyon on the Truckee, about ten miles below Hunter's, and from there to the State line Chinamen are swarming on the road in immense numbers. Crystal Peake is becoming quite a lively business place. A large number of Chinese traders have located there for the time to supply the wants of their countrymen at work on the road. There will be some pretty heavy work to be done in the canyon, but that passed and the grading will be done as fast as the track can be laid.

SIERRA COUNTY ITEMS.—We glean the following from the Downieville *Messenger* of February 8th:

Charles Standish, whose loss in the snow we chronicled last week, had recently taken out a life policy for $2,000 in the Northwestern Insurance Company, and the policy arrived here only a few weeks ago. He is reputed to have considerable sums of money loaned out, mostly to irresponsible parties. His remains bave not yet been recovered.

KILLED IN SNOW-SHOEING.—A Frenchman named Napoleon Normandin, one of the prize winners during the races last winter, is reported to have been killed at Laporte a few days since by running against a tree. We are unable to gain any particulars concerning the matter, but it seems probable that some accident to his shoes must have caused the mishap, as Napoleon was one of the best riders on the ground.—*Mountain Messenger.*

FROZEN TO DEATH. — The Helena (Montana) *Herald*, of January 24th, says:

From our Blackfoot correspondent we learn that Jacob A. Smith was frozen to death during the latter part of December near Blackfoot. Mr. Collins, who was out hunting, discovered the body of the missing man at a point about three miles from here, the face being horribly mutilated by wolves or birds. He was formerly a resident of Kutztown, Berks county, Pa., where he has relatives still living.

A VOICE FROM THE OPPRESSED.

DUTCH FLAT, FEB. 14, 1868.

EDITOR ENQUIRER:—If I may be allowed the privilege I would like to make a few remarks through your columns.—(Why, to be sure, we never would refuse a pretty female a privilege—ED. ENQ.): Do men have the privilege of ejecting their mouthfuls of saliva upon the floors of the dance-hall or other places which they may visit, knowing full-well when they do it, that it, and the filthy mud which they bring in on their boots, will be wiped up with our skirts and form such masses theron that it takes almost every effort on our part to remove it therefrom? When any of my sex go through the street our ears are greeted by such expressions as the following: "Fine leg, that." "Spindle shanks; aint she?" or that other equaly refined and high-toned expresion: "She don't hold her dress up high enough; can't see her ankles," and many other remarks fully as pure and manly in their tone, coming from groups of men standing behind shop doors or around the awning posts reach our ears. Now I want to know if the laws of society permit shapes claiming the title of gentlemen to use these indignities toward us? When we attend a dancing party some lubberly clown is sure to place his bug-crushers upon some of our dresses and rend them from our persons, and then do not have sense or politeness to say "excuse me;" but on the contrary, they generally turn to some other "lord of creation" and make some such an expression as: "D—n such dresses, a feller can't move without getting on them; why in h—ll don't they pin them up?" Now that sounds gentlemanly, don't it? "Wonder how much cotton that woman has in her bosom," says one whose head is as soft as mush; and "there's false curls enough on that head to make a hair matress," says another whose head would make a respectable dish of veal *croquettes* if 'twere not totally devoid of brains. Oh, how my blood boils when I think of the indignities to which my sex are subjected! Now Mr. Editor, I think that it is but right that women should be allowed the same privileges that men enjoy. If we had a legislature of females would'nt we make you men know your places; we'd enact laws that would hold you down to your level. Well I guess I'd better stop for this time. JENNY.

PHISTICAL.—On Tuesday evening last a man by the name of King engaged in a social knock down with another named Hampton. King was declared the victor.

WE learn that a large number of claims in and about Squeirs' Canyon intend to commence work during the coming week.

ALLEN'S LUNG BALSAM.

Charles Earmer, Druggist, writes from Ovid, Mish., "I have just sold the last bottle of ALLEN'S LUNG BALSAM. It sells like 'hot cakes,' and gives UNIVERSAL SATISFACTION.

Stanley & Skipper, Chippewa Ealls, Wis., writes: "We wish you would send a good supply of ALLEN'S LUNG BALSAM, as it is getting to be one of the necessary institutions of the country. It sells well, and gives entire satisfaction to those using it."

F. L. Allen, a well-known druggist, at New London, Conn., writes us that ALLEN'S LUNG BASAM is favorably received by the afflicted. He says: "I have retailed nearly four dozen bottles over my counter, and it has given good satisfaction."

Many letters like the above are daily received from all parts of the country. The demand for it from California is large for a medicine so recently offered for sale. We have sold hundreds of dozens to go to that far-off region of gold. IT CURES, and that accounts for its GREAT SUCCESS. None use it who do not, recommend it to their friends. Hence its great sale. Price $1 per bottle. fe15 1m

THE GREAT MEDICINE OF THE WORLD.

Perry Davis & Son's Pain Killer, may most justly be styled the great medicine of the world, for there is no region of the globe into which it has not found its way, and none where it has not long been largely used and highly prized. Moreover, there is no clime to which it has not proved to be well adapted for the cure of a considerable variety of diseases; it is a speedy and safe remedy for burns, scalds, cuts, bruises, diarrhea, and bowel complaints generally, it is admirably suited for every race of men on the face of the globe.

It is a very significant fact, that notwithstanding the long period of years that the Pain Killer has been before the world, it has never lost one whit of its popularity or shown the least sign of becoming unpopular; but on the contrary, the call for it has steadily increased from its discovery by that honored and excellent man, Perry Davis, and at no previous time has the demand for it been so great, or the quantity made been so large, as it is this day.

Another significant fact is, that nowhere has the Pain Killer ever been in higher repute, or been more generally used by families and individuals, than it has been here at home where it was first discovered and introduced, and where its proprietors, Messrs. Perry Davis & Son, have ever been held in high esteem. That the Pain Killer will continue what we have styled it "the great medicine of the world," there cannot be the shadow of a doubt.—*Providence Advertiser.* fe15 1m

NOTICE.

U. S. LAND OFFICE, CALIFORNIA, MARYSVILLE, FEB'Y 3, 1868.

Notice is hereby given that Owen Garrity has this day filed in this office a Petition and diagram for the Gray Eagle Quartz mine, situated on the Gray Eagle Ledge or Lode, in the Iowa Hill Mining District, County of Placer and State of California, and known and described as follows, viz: Commencing at a post at the Southeasterly end of Steele and Noble's claims, and running thence North 51¾ deg. East four hundred feet—thence South 38¾ deg. East eighteen hundred feet—thence Southwesterly two hundred and fifty-five feet—thence Westerly one hundred and eighty-five feet—and thence Northwesterly sixteen hundred and eighty-five feet to place of beginning—and being bounded on the Northwest by Steele and Noble's claim, and on the Northeast by John Culser's claims—as shown on the diagram now on file in this office—and the said Owen Garrity intends to apply for a Patent for said quartz mine under the Act of Congress of July 26, 1866.

Any person or persons claiming adversely to the said Owen Garrity are required to file notice of the same in this office within three months from this date.

CHAS. SEFFENS.....Proprietor.

THIS HOUSE BEING NOW FULly completed and arranged in all its appointments presents greater inducements to transient as well as permanent customers than any other establishment of the kind in the mountains. The proprietor having been in the business for a number of years, flatters himself that he is sufficiently known as a caterer to public taste to warrant their support.

LARGE AIRY ROOMS,

with clean bed linen, well ventilated are requisites that should not be dispensed with but which are ALWAYS found at this house.

THE TABLE

will always be found supplied with the latest delicacies of the season, and polite and willing waiters always in attendance. In connection with the house is a BAR ROOM, always supplied with thebest

WINES, LIQUORS and CIGARS,

to be had in the market. An experienced barkeeper constantly at hand to wait upon customers; also a fine Billiard Table where parties may play this healthful game FREE OF CHARGE.

SUMMER RETREAT!

To families and all strangers in the mountains the proprietor would say that Dutch Flat presents all the inducements of a Summer Retreat, being located on the line of the Pacific Railroad at a convenient and pleasant distance from the city, is easy of access to those whose means are limited and require fresh air kind treatment and good living. All the proprietor asks is an opportunity to prove the correctness of the above assertions.

LIVERY STABLE.

Connected with the hotel is a first-class Livery Stable, where

Carriages and Horses

can be had for all parts of the country. Parties supplied with carriages with or without drivers.

LETTER FROM SACRAMENTO.

THE following letter intended for our last issue did not arrive until Saturday, we give place to it however, as it contains many items of interest:

SACRAMENTO FEB. 7th, 1868.

EDITOR ENQUIRER:—On Wednesday last a lengthy and earnest discussion took place in the Assembly on the Act granting to the mining counties, the use of the foreign Miners tax collected in said counties. The friends of the bill made an effort to pass it under a suspension of the rules but failed, that requireing a two thirds vote; they however, showed sufficient strength to pass the bill when it comes up in its order. On Thursday most of the Valley counties through their members made application for the right to enjoy solely the poll tax receipts of the several counties, as condition for the Miners tax which they are sure to lose. The result I think will be that a general law will be framed giving to the several counties the Poll tax and miners tax collected in the counties respectively. On Wednesday night the Assembly Chamber was crowded to its utmost capacity, with persons anxious to witness the exhibition of the Deaf and Dumb and the Blind pupils, under the charge of Prof. Wilkinson of the California University. Most of the pupils showed a remarkable degree of proficiency. Small boys who have never seen the light of day, readily computed problems which would perplex many of their age enjoying the most favorable opportunities. The Deaf Mutes were exercised by writing short dissertations upon historical and biographical subjects chosen by the audience, and displayed a wonderful knowledge of both Ancient and Modern history. The exhibition was watched with great interest and no doubt will have the effect to influence an appropriation for the support of the institution. This is a novel way the present Legislature has of finding out the use made of money appropriated for public purposes. Prof. Whitney, wanted money, he was told to come forward and give an account of his past stewardship, and make known his future intentions. The institution for the Deaf and Dumb and the Blind, wanted money and were likewise called out; and last night W. Wadsworth Esq. repeated his lecture on silk and wine—Silk wants encouragement. Joseph Newman, the pioneer silk manufacturer has just sent in his petition for large bounties to encourage him to complete his buildings, and manufacture silk. The contested election case of Mason vs. Tuttle, comes up again to day and if Mr. Tuttle is ready will no doubt be disposed of.—(The case has since been decided in favor of Mr. Tuttle—ED. ENQUIRER.) The Senate has refused to consider Assembly resolution providing for a joint convension to elect a Harbor Commissioner until the fourth of March; the object seems to be to defeat the election during this session. The committee of Free Conference on the Bribery resolutions, disagreed upon every point save two those are, "that when charges are properly made an investigation should be had," and that each House should investigate for itself. The Senate members of the Committee think charges have already been made in a manner sufficiently tangible to require investigation, and a move in that direction may be shortly expected. The House members of the committee want the usual affidavit to accompany the charge upon which an investigation can be based. The Governor exercised his veto power for the first time on the Bill granting to J. M. Hutchings and J. C. Lamon certain lands in Yosemite Valley. It seems that title was acquired by the State to those lands, by Act of Congress, one of the stipulations being that the State should not alieniate or sell the same; and on this ground the the Governor is generally sustained by the press. [The House has passed the Bill over the Governor veto. ED. ENQ.,]

The Webb Sisters have began an engagement at the Metripolitan, playing to crowded Houses. A LOPHER.

Redstone Quartz Mining Company. Location of works: Lost Camp District, Placer county, Cal. Notice: There are delinquent on the following described stock, on account of assessment levied on the Second day of August, 1867, the several amounts set opposite the names of the respective shareholders, as follows:

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco.

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and heatlh of our citizens; and his rapidly spreading reputation; although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

SPECIAL MEDICAL NOTICE.—DR. CHARES H. TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is removed to No. 108 Montgomery street, next door to the Occidental Hotel, San Francisco. Having relinquished my old modes of advertising, which has become so common with all the Quack Doctors of San Francisco, filling up the newspapers with false references, for the purpose of imposing upon strangers. I think it is only necessary to inform those in need of a Physician of long experience and successful practice, that I can be consulted at all business hours, at my Medical Institute, next door to the Occidental Hotel, San Francisco.

Ladies suffering from the Whites, Piles, Weakness of the Back, Pain in the Side, Headache, Palpitation of the Heart, Derangement of their Monthly Sickness, and all other diseases that the Female System is subject to, will find prompt relief by applying to DR. TOZER.

OF DEATHS, that annually occur, are caused by Preventable Diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills, (as the case may require,) were administered when pain or uneasiness or when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. PAIN, no matter from what cause, is almost instantly cured by the Ready Relief. In cases of Cholera, Diarrhœa, Cramps, Spasms, Bilious Cholic, in fact all Pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Arms, Rheumatism, Neuralgia, Fever and Ague, Headache, Toothache, &c., will in a FEW MINUTES yield to the soothing influence of the Ready Relief.

Sudden Colds, Coughs, Influenza, Diptheria, Hoarseness, Sore Throat, Chills, Fever and Ague, Mercurial Pains, Scarlet Fever, &c., &c., take from four to six of Radway's Pills, and also a teaspoonful of the Ready Relief in a glass of warm water, sweetened with sugar or honey; bathe the throat, head and chest with Ready Relief, (if Ague or Intermittent Fever, bathe the spine also,) in the morning you will be cured.

How the Ready Relief Acts.

In a few minutes the patient will feel a slight tingling irritation, and the skin becomes reddened; if there is much distress in the stomach, the Relief will assist nature in removing the offending cause,—a general warmth is felt throughout the entire body, and its diffusive stimulative properties rapidly courses through every vein and tissue of the system, arousing the slothful and partially paralyzed glands and organs to renewed and healthy action, perspiration follows, and the surface of the body feels increased heat. The sickness at stomach, colds, chills, headache, oppressed breathing, the soreness of the throat, and all pains, either internally or externally, rapidly subside, and the patient falls into a tranquil sleep, awakes refreshed, invigorated, cured.

It will be found that in using the Relief externally, either on the spine or across the kidneys, or over the stomach and bowels, that for several days a pleasing warmth will be felt, showing the length of time it continues its influence over the diseased parts.

☞ Price of R. R. R. 50 cents per bottle. Sold by Druggists and Country Merchants, Grocers, &c.

TYPHOID FEVER.

This disease is not only cured by Dr. Radway's Relief and Pills, but prevented. If exposed to it, put one teaspoonful of Relief in a tumbler of water. Drink this before going out in the morning, and several times through the day. Take one of Radway's Pills one hour before dinner, and one on going to bed.

If seized with fever, take 4 to 6 of the Pills every six hours, until copious discharges from the bowels take place; also drink the Relief diluted with water, and bathe the entire surface of the body with Releif. Soon a powerful perspiration will take place, and you will feel a pleasant heat throughout the system. Keep on taking the Releif repeatedly, every four hours, also the Pills. A cure will be sure to follow. The Relief is strengthening, stimulating, soothing, and quieting; it is sure to break up the Fever and to neutralize the poison.

Let this treatement be followed and thousands will be saved. The same treatment will be followed in Fever and Ague, Yellow Fever, Ship Fever, Bilious Fever, will effect a cure in 24 hours. When the patient fells the Relief irritating or heating the skin, a cure is positive. In all cases where pain is felt. the Relief should be used.

REDINGTON & CO.S' COLUMN.

REDINGTON & O.'S
ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

A great French Physician says: "More than half of the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the body, and breed disease,"

Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as

PLANTATION BITTERS.

This splendid tonic is now used by all classes of people for every symptom of a "Stomach out of order."

The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all its machinery at work, and enable it to resist and throw off the approaching danger. The tendeny of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle, yet powerful Tonic, than to deluge and weaken and defeat her curative processes with poisonous drugs and fiery mixtures, which only stupify and plant the seeds of disease and death.

Important Certificates.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WAGGONER, Madrid, N. Y.

"* * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use. Thy frend.
ASA CURRIN, Philadelphia, Pa."

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.
REV. J. S. CATHORN, Rochester, N. Y."

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.
G. W. D. ANDREWS,
Superintendent Soldiers' Home,
Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted nature's great restorer.

The public may rest assured that in no case will the perfectly pure standard of the PLANTATION BITTERS be departed from. Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.

Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and impostor. Beware of refilled bottles. See that our private stamp is UNMUTILATED over every cork.

Sold by all Druggists, Grocers and dealers throughout the world.

FLEAS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the Insect species—Fleas, Roaches, Mosquitoes, Ants, Bugs,

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It bears the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No other article has ever given such positive satisfaction in its use.

Its reputation is well known. It is easily and readily used—directions accompany each flask. Beware of counterfeits.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and dealers on Pacific coast

MEXICAN
MUSTANG
LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, SORE THROAT,
STIFF AND WEAK JOINTS, BURNS,
BRUISES, EAR ACHE,
SPRAINS, SWELLINGS,
FRESH CUTS OR WOUNDS,

Or any other complaints requiring an external application.

FOR HORSES

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-Bone, Wind-Galls, Bruises, Strains, etc.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. WESTBROOK, Chemist, and the *private* U. S. stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. *Look closely!*

does not tend so much to the embellishment of ladies as to the peace of society. It produces the effect of the well-known velvet loup worn with a dominio. The pattern leaves a space free of flower or design for two sparkling eyes underneath All the rest is richly and thickly marked.

Fashion is racing from store to store for bronzes chains and knick-nacks, made of gold or its substitute, which is becoming all the rage for personal ornaments.

White cravats for full dress, though worn, are no longer *en regle* in this country. Gentlemen who are in the mode always wear dark cravats, generally black, white having been surrendered to servants, as may be seen any evening at Delmonico's.

The mortality of the city for the first four days of the year was 266. The year opens favorably but with an increased mortality from scarlet fever.

The lager beer drinkers are in a great state of excitment in consequence of the threatening prospect of a material rise in the price of their favorite beverage. Manufacturers seriously contemplate enlarging their charges. The price is now quite up with the means of many lager devotees, and to make it greater will be to "rob a poor man of his beer" in thousands of instances.

The skating carnival is at its height. The numerous ponds are thronged daily and nightly by crowds of people, young and old, eager to enjoy the sport while it lasts. On one of our ponds a novelty is to be brought out shortly in the shape of ice boats.

The dry goods clerks of this city held their annual ball a week ago Tuesday night, at Irving Hall. It was a big success.

The velocity of the Gulf Stream is reported by experienced navigators plying between New York, Key West, Havana, and New Orleans, to have recently been increased from three and a half miles an hour to five miles per hour, almost drawing a steam vessel on the reefs. The fate of sailing vessels on this course is yet to be learned. No doubt the recent earthquakes have had something to do with the phenomenon. The Navy Department has ordered a vessel from the Brooklyn Navy Yard to steam along the route, making observations, and report the result.

Pike's New Opera House in this city, the largest structure devoted to Lyric Art in the United States, was opened by La Grange and Brignoli, in the Trovatore, on the 9th inst. Box, parquette, and balcony were resplendent with rich toilets, lovely women, and glittering jewels. There are few opera houses in Europe, and none in America, that can compare with the new establishment. It cost upwards of one million of dollars to erect it. S. N. Pike, the proprietor, is reputed to be worth five million, mostly made the last *three years*, in whiskey speculations.

Miss Belle Boyd, the famous dashing female rebel spy of the Shenandoah Valley, has ceased to be an object of public wonder and curiosity. She made a decided failure last night at the French Theatre, in the comedy of the Honeymoon, to a scanty house.

"The Black Crook," at Niblo's, went out in a blaze of glory on Saturday night, an immense audience bidding an affectionate farewell to the old time favorite. This week the theatre will remain closed for proper rehersals of the "White Fawn," which will be produced on Monday evening next, with shorter dresses for the ballet-girls, more display of legs, and greater magnficence of detail than its predecessor.

It certainly speaks well for the good taste and discrimination of New York audiences that "A Midsummer Night's Dream" continues to hold the boards with such infinite success as it does at the Olympic. It appeals more to the refined taste of its audiences than any other place of amusement opened here.

Twenty-two establishments in this city and Brooklyn return over three million dollars as their receipts last year.

Niblo's seems to have made, from a single spectacle, double the amount of money of any of the other theatres—a striking comment on the state of the drama at the present day. Wallack's and the Olympic come next in order of receipts, and the Circus follows close on their totals. The fall and winter season, despite the stagnation of business, exhibits an increase of patronage in the majority of the theatres.

It is related of Miss Madeline Henriques, the last leading lady of Wallack's, that she said her salary was not much more than sufficient to keep her in boots and gloves. Her father being a successful merchant, and her benefit receipts being always enormous, enabled her to hold the position with *eclat*. This extravagant system of stage toilet was "inaugurated" by a leading actress, known to every visitor of New York theatres during the past ten years—Mrs. John Hoey, a fortunate lady who made one of those splendid matrimonial *partis* which actresses are repudiated to be in the habit of making so frequently. Her stage costumes frequently cost her ten thousand dollars a year.

An item copied from Paris papers informs us that Adelina Patti recently wore a dress that cost 2,000 francs.

The American actress must vary her dress with every varying fashion. Modern comedies require modern toilets, and that these are expensive, as every married man can testify.

Vanderbilt wants to buy the Pacific Railroad.

The New York *Herald* is out strong this week in favor of reelection of President Johnson. Last week it advocated Grant, and next week it is supposed it will back up the claims of Chase.

At a billiard tournament, a week ago Tuesday night, McDevitt made a run of 1,483 without stopping, beating Goldthwaite easily.

The return of the pictures from the American Art Department of the Paris Exposition was made the occasion of a very pleasant reception at the Academey of Music a week ago Tuesday evening. Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.

Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Disorders.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

To Females.

When a female is in trouble, or afflicted with disease as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular powers, palpitation of the heart, irritability, nervousness extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility and all other diseases peculiar to females, she should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about her troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred, Dr. Doherty takes this opportunity of observing, that all letters are opened only and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted. Consultation by letter or otherwise, FREE. Permanent cure guaranteed or no pay.

A CARD FROM THE

AMERICAN WATCH COMPANY

Of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this: European are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Ancres, Lepines and so-called Patent Levers—which soon cost more in attemptep repairs, than their original cost. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches are made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations, from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enamelled and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIME-KEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents.

MEDICAL.

THE SCIENCE OF HEALTH.

Every Man His Own Physician.

HOLLOWAY'S PILLS,

AND

HOLLOWAY'S OINTMENT!

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system—Abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates billious disorders, pains in the side, &c. The Bowels sympathize by Costiveness, Diarrhœa and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum,

Are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin.

Arising from a bad state of the blood of chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.

Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles,	Sore Legs,
Burns,	Rheumatism,	Sore Breasts,
Chilblains,	Ringworm,	Sore Heads,
Fistula,	Salt Rheum,	Sore Throats,
Gout	Scalds,	Sprains,
Stiff Joints,	Tetter.	Ulcers.
Lumbago,	Skin Diseases	Venereal Sores,
Sores of all kinds,	Mercurial Eruptions,	
Swelled Glands,	Wounds of all kinds.	

CAUTION.—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a *Water Mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light.* A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

* Sold at the manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine, throughout the civilized world.

☞ There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot and box.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles iis dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine, WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, or NO PAY REQUIRED, at the

Seminal Weakness or Spermatorrhœa.

The young man who experiences that growing weakness in his muscular and mental organization, should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to this evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs, entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long after-ward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writign or the society of friends, etc, The patient will probably complain of Dizziness, Vertigo and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, buess of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonnorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to DR. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible general habits of living, occupation, etc., etc.

THE HOWE
SEWING MACHINES,
Manufactured by the
HOWE MACHINE COMPANY
Elias Howe, jr., Proprietor,
No. 609 Broadway, N. Y.

For Families and Manufacturers.

They are celebrated for doing the best work using a much smaller needle for the same thread than any other machine.

The New Improved Family Machine is without a rival, and cannot be surpassed—a Hemer, Feller, Braider, Quilter, and Guide, go with each Family Machine free of charge.

Every machine is as near perfection as the best machinery in the world can make it.

They are adapted to all kinds of Family sewing and Manufacturing of every description, making a beautiful and perfect stitch, alike on both sides of the articles sewed, and will neither rip nor ravel.

The parts being exactly alike, if any part needs to be replaced, the operator can replace, it.

Loss of time and expense of sending to a machine shop rarely occurs.

The Best Machine in the World.
